

# TABLE OF CONTENTS

<b>Executive Summary</b>	<b>i</b>
<b>List of Tables</b>	<b>ix</b>
<b>List of Figures</b>	<b>xiii</b>
<b>Acknowledgements</b>	<b>xvii</b>
<b>Acronyms and Abbreviations</b>	<b>xix</b>
<b>Chapter 1: Introduction</b>	<b>1</b>
Background.....	1
Process and Basis for Establishment of Minimum Flows and Levels.....	2
Legal and Policy Basis for Establishment of Minimum Flows and Levels .....	3
Other Levels of Harm Considered in Florida Statutes .....	6
MFL Recovery and Prevention Strategy .....	7
Document Structure.....	8
<b>Chapter 2: Description of the Water Body</b>	<b>9</b>
Introduction .....	9
Climate, Rainfall, and Seasonal Weather Patterns .....	10
Predevelopment Hydrology.....	11
Major Basins.....	12
Land Use.....	21
Water Resources.....	22
Water Quality .....	25
Natural Systems.....	28
Water Resource Issues.....	38
Resource Protection Programs .....	41
<b>Chapter 3: Resource Functions and Considerations</b>	<b>43</b>
Introduction .....	43
Water Resource Functions and Considerations .....	43
Alterations .....	48
Summary and Conclusions .....	50
Exclusions.....	50

<b>Chapter 4: Methods for Developing Minimum Flow Criteria</b>	<b>51</b>
Introduction .....	51
Establishing Hydrologic Management Criteria .....	54
Synthesis and Application .....	56
Process Used to Develop MFL Criteria.....	62
<b>Chapter 5: Results of Hydrologic Analyses</b>	<b>75</b>
Systemwide Effects .....	75
Effects on the South Fork of the Estuary.....	77
Effects on the North Fork of the Estuary.....	79
Effects on the Central Estuary .....	80
Analysis of Flows during Drought Conditions.....	80
Definitions of Harm and Significant Harm .....	81
Additional Examination of the North and South Forks of the St. Lucie River .....	84
<b>Chapter 6: Proposed Minimum flow criteria</b>	<b>95</b>
Proposed Criteria .....	95
Ability to Meet the Proposed Criteria.....	97
Prevention Strategy.....	97
Research Strategy .....	99
<b>References</b>	<b>101</b>
<b>Glossary</b>	<b>111</b>
<b>Appendix A: St. Lucie Estuary and Indian River Lagoon Conceptual Model</b>	<b>A-1</b>
Introduction .....	A-1
Sources.....	A-3
External Drivers and Ecological Stressors .....	A-3
Ecological Effects: Critical Linkages between Stressors and Attributes .....	A-4
Ecological Attributes .....	A-5
Conceptual Model Approach.....	A-13
Performance Measures and Targets.....	A-13
Literature Cited.....	A-17
<b>Appendix B: Oligohaline Zone Literature Review Report</b>	<b>B-1</b>
Introduction .....	B-1
Physical, Chemical, and Biological Processes .....	B-1

Buffer.....	B-2
Habitat Value.....	B-3
Discussion.....	B-11
Literature Cited.....	B-11
Additional Relevant Literature .....	B-15

## **Appendix C: Hydrologic Simulation Program - Fortran Model for St. Lucie Basin**

### **C-1**

Description of the St. Lucie Basin.....	C-1
Overview of Hydrologic and Hydraulic Models .....	C-3
Overview HSPF Enhancements .....	C-4
HSPF Model of St. Lucie Basin .....	C-5
HSPF User Control Input Files.....	C-15
RCHRES Module .....	C-17
Calibration and Model Results .....	C-18
Water Budget for St. Lucie Estuary Watershed .....	C-31
Literature Cited.....	C-40

## **Appendix D: Application of the Natural System Model to the St. Lucie Watershed**

### **D-1**

Introduction .....	D-3
Model Specifications .....	D-3
Boundary Conditions.....	D-8
Hydrologic Processes .....	D-10
Results .....	D-12
Bibliography .....	D-16

## **Appendix E: Predrainage Landscape Ecology and Hydrology of the St. Lucie Watershed Estimated from Historical Sources**

### **E-1**

Introduction .....	E-1
Methods .....	E-8
Results .....	E-9
Conclusions .....	E-21
Recommendations .....	E-22
References .....	E-22

**Appendix F: Estimating the Extent of the Oligohaline Zone in the North Fork of the St. Lucie River and Estuary Under Low Flow Conditions F-1**

Summary.....	F-1
Background.....	F-1
One-Dimensional Analytical Solution.....	F-2
Two-Dimensional Simulation on Extended Estuary Grids with the RMA Model.....	F-8
Results .....	F-9
Conclusion.....	F-10
References .....	F-11

**Appendix G: Current Projects Associated with the Indian River Lagoon SWIM Program G-1****Appendix H: The Application of the St. Lucie Estuary Hydrodynamics/Salinity Model in the Indian River Lagoon and St. Lucie Estuary Environmental Study H-1**

Area of Model Coverage and Data Collection Sites.....	H-1
Model Description .....	H-2
Model Verification .....	H-3
Impact of Canal Discharge on the Estuarine Salinity.....	H-4
Long-Term Salinity Computation .....	H-6
Salinity Computations under Historic (Natural), Present, and “Future with Project” Conditions.....	H-10
Model Assumptions and Limitations.....	H-10
References .....	H-12

**Appendix I: Scientific Peer Review Panel Final Report and District Response I-1**

Scientific Peer Review Panel Final Report.....	I-3
SFWMD Response to the Scientific Peer Review Panel Draft Report .....	I-21

**Appendix J: Selected Passages from the Florida Statutes and Florida Administrative Code J-1**

Selected Passages from Chapter 373, Florida Statutes.....	3
Selected Passages from Chapter 40E-2, Florida Administrative Code .....	14
